## Cover Your Investment

TADCO Roofing & Waterproofing knows not every business has the same roof or is working with the same budget. With this in mind, our team delivers unique commercial roofing and waterproofing solutions that are tailored to the needs of your business.

Whether you're seeking a completely new roof for a commercial remodeling initiative or looking for a metal roofing retrofit, our team has the skills and experience to get your project completed without hassles, costly delays, confusion or added costs that often come in dealing with teams of multiple subcontractors.

### Commercial Roofing Services

- New Roofing Installation
- Metal Roofing Installation
- Re-Roofing and Replacement
- Metal Roofing Retrofits
- Built-Up Roofing Systems
- TPO Single Ply
- Roofing Tear-Offs
- Roofing Leak Detection

## Reinforce Your Investment

Leveraging its years of industry knowledge and skill, TADCO Roofing & Waterproofing combines its in-house expertise with superior materials to deliver a wide range of top-quality preventative and restoration waterproofing services for contemporary and historically registered buildings and structures.

### Commercial Waterproofing & Caulking Services

- Air and Vapor Barrier Systems
- Below-grade Waterproofing
- Urethane/Epoxy Deck Coating Systems
- Traffic-bearing Coatings
- Wall Coatings
- Roof Coatings
- Window Wet Glazing and Caulking
- Sealant/Joint Repair and Installation
- Expansion Joint Systems
- Firestop Sealants
- Sealing and Repair of Fountains/Water Features
- Concrete/Masonry Repair
- Cleaning and Water Repellents
- And More

## Maintain Your Investment

At TADCO Roofing & Waterproofing, we don't believe in a one-size-fits-all approach; we have built our reputation as a trusted partner for our customers because we build our maintenance and service programs to meet their needs. Combine consistent response and early detection with our best-in-class service programs, and the lifespan of your investment can meet or exceed expectations.

### Service, Maintenance & Inspections

- Preventative Maintenance Programs
- Leak Detection and Repair
- 24/7 Emergency Leak Repairs
- Roof Inspections and Reports
- Roof Coating Systems
- Disaster Restoration

Commercial roofing systems are often as complex and special as the structures they were built to protect.

The damage caused by water intrusion can be extensive, which is why it's important to have the technical expertise and quality materials to get the job done right.

A robust preventative maintenance program helps identify potential problems early on, which will help save money in the long run.
