

NATIONAL PRESENCE. HOMETOWN MENTALITY

RANKED TOP 50 COMMERCIAL ROOFING COMPANIES IN THE COUNTRY!

WHO IS PBA?

Premier Building Associates ("PBA") was founded by Dan Secondino in 2015. Dan comes from a long line of roofers & contractors, and he started PBA after building the roofing division for his family's fifth-generation contracting business. PBA is based in Connecticut but services customers nationwide. PBA's commitment to quality, efficiency, and customer care have driven the business to being a Top 50 Commercial Roofing Contractor in the US. PBA maintains relationships with all the leading manufacturers in the industry and manages a large base of in-house workers and trusted subcontractors to service your needs anytime, anywhere.

CUSTOM METAL COMPONENTS**

**BONDING CAPACITY TO
SERVE LARGE PROJECTS**

DON'T JUST TAKE IT FROM US

"At Elevate, we warranty PBA's labor and quality for 20 to 30 years, so they have to meet our quality standards and have our vote of confidence for us to promote them. PBA has the capacity to do large jobs —hundreds of thousands of square feet. Only certain contractors can handle that capacity, and PBA is particularly good at it."

"Premier Building Associates in North Branford, CT has been an outstanding partner for our large-scale commercial roofing projects. Their expertise and professionalism in handling complex, expansive roofing needs are unmatched. As a trusted partner of GAF, they bring an added layer of reliability and quality to every project. Premier Building Associates consistently delivers on time and within budget, making them our go-to contractor for commercial roofing. Their ability to manage large projects with precision and attention to detail is impressive and with their A Top 50 Commercial Roofing Contractor in the US Major Customers Across Retail, Education, Manufacturing, GCs & REITs."

"Price and quality are equally important top factors, but even more important is time. PBA has always been able to get things done for us quickly. As a school organization, we are often under time constraints because we need projects completed before the beginning of the school year in September. PBA's responsiveness is much appreciated and necessary."

"PBA does work the right way, at a competitive price, and on time. They know what they're doing."

"My father's roofing company taught me that there is a wide variety of roofers in the marketplace who aren't always reliable. The PBA guys operate at another level."

"It all starts with having a strong leader on the ground. The leader's role is crucial in enforcing rules, keeping me informed, updating me on progress, and communicating any issues with deliveries or equipment needs, like scheduling a crane...PBA has an excellent leader who consistently keeps me updated as needed without being overbearing."
